

Enhance your career and stand out from your peers by obtaining your Certified Insurance Fraud Investigator (CIFI) designation.

The Certified Insurance Fraud Investigator (CIFI) program is an accreditation process for individuals with the specialized skills required to detect, investigate and deter insurance fraud. The program has a high standard for admission and testing, which includes adherence to IASIU's code of ethics, and a demonstrated competency through mandatory continuing professional education.

Being certified has many professional advantages, some of which include:

- Professional recognition in your field.
- Add to your qualifications needed for expert court testimony.
- Use as an advertising/marketing tool for insurance company SIUs.
- Ensure consistent high standards throughout the industry.
- Enhance your qualifications to investigate suspected insurance fraud.
- Inspire public confidence in the integrity, objectivity and professionalism of insurance investigators.
- Build your resume.
